
Test plan: KR Agency

Gennadiy Furduy • 1601321027 • 16.10.2019

Overview

We will use manual testing for our project.

In the future, if the project size grows, we will implement automation testing.

Testing goals

The application
should implement
functions described
as acceptance
criteria

The application
should look like the
prototype (mock up)

Function for testing

- User can choose victim type
 - User can choose performer
 - User can see successful chance
 - User can see price
 - System calculate order price correctly
 - System adds orders to database
 - System shows all orders for users with administrative rights
-
